

AREEB AHMED

BS COMPUTER SCIENCE STUDENT

Arbi786166@gmail.com | +923445623202 | GitHub | LinkedIn

OBJECTIVES & PERSONAL STATEMENT

I am an enthusiastic student of BS Computer Science with a lifelong passion for computers and currently seeking an internship to improve my skills and learn the new ones. As the Proctor of Computer Science department, I have developed strong leadership and organizational skills. I am committed to applying my knowledge in a professional setting to contribute effectively and achieve personal growth.

PROFESSIONAL EXPERIENCE

Digital Marketing & Business Management | *Startup*

- Managed Meta Business Management to run targeted Facebook Ads and Google AdSense campaigns.
- Developed business structure and executed sales operations for the startup.
- Designed and implemented digital market structures tailored for business growth.

E-commerce Manager | *Local E-commerce Business*

- Successfully managed a local-level e-commerce operation for 4 years, specializing in the sales of instruments and related products.
- Handled complete end-to-end operations including product sourcing, inventory management, customer relations, and sales fulfillment.
- Leveraged marketing and business strategies to consistently drive sales and maintain profitability.

Android App Development Intern | *Arch Technologies*

- Completed a 3-month intensive internship focused on Android application development (Certificate Earned).

Freelance Project Dev | *Self-Employed*

- Created academic projects for university students on a freelance basis, receiving payment for my work.
- Improved problem-solving and project management skills.
- Gained experience in handling client requirements and delivering on time.

Proctor | *Department of Computer Science, Arid University*

- Provided support and guidance to students.
- Ensured smooth running of departmental activities and events. Developed leadership and organizational skills through coordinating various events.

Gaming Community Manager

- Managed and moderated Discord servers for gaming communities.
- Organized and hosted gaming tournaments for games.
- Enhanced community engagement and developed communication skills.

PROJECTS

"Fusion Arcade" Gaming Zone Concept | *HTML, CSS, JS*

- Developed a web-based concept featuring two interactive games: Quiz and Ball Blitz. ([Project Link](#))
